

happy, healthy saltwater and freshwater homes

Saltwater and freshwater fish need a large, well-balanced environment to thrive. Make sure you're prepared to take on the extra responsibility required before bringing these beautiful fish home.

29 gallons and up recommended
with sufficient filtration and proper husbandry

\$535

Average setup cost for a 29G tank

One inch of fish per **two gallons** of water

While this a general guideline, it is very important that the needs of each individual fish be considered when choosing the size and placement of your aquarium.

20 minutes weekly maintenance

Daily process

Monitor fish and aquarium health, check temperature and feed properly

Weekly process

Top off with treated freshwater, check and adjust temperature, check and adjust salinity level, clean glass and empty protein skimmer

Monthly process (every 3-4 weeks)

Pre-mix salt with treated freshwater, replace 25% of water with treated water of the same temperature, clean glass to remove algae, replace filter cartridge/media, clean protein skimmer, check salinity level and verify pH level

10 gallons and up recommended
with sufficient filtration and proper husbandry

\$100

Average setup cost for a 10G tank

One inch of fish per **one gallon** of water

While this a general guideline, it is very important that the needs of each individual fish be considered when choosing the size and placement of your aquarium.

10 minutes weekly maintenance

Daily process

Monitor fish and aquarium health, check temperature and feed properly

Weekly process

Top off with treated freshwater, check and adjust temperature and clean glass

Monthly process (every 3-4 weeks)

Replace 25% of water with treated water of the same temperature, clean glass to remove algae and replace filter cartridge

Dory, a Blue Tang, cannot join Nemo in an aquarium less than 150 gallons because she will grow up to be over 12 inches. If you want to keep Dory with fish like Nemo you will need to purchase a large aquarium. Clownfish similar to Nemo can live in smaller aquariums.
